Local I.O.D.E. Entertains Olds

Monday evening Mons Chapter of the I.O.D.E. entertained the Baron Tweedsmuir Chapter of Olds at the home of Mrs. J. H. Fleury.

After the regular meeting the social committee, Mesdames Dunlop and Friesen presented a clever program consisting of a charade in which the words "Mons Chapter Welcomes Olds" were acted, a musical contest which was won by Mrs. Hodgson of Olds, and crystal gazing. Mrs. Hodgson also gave several delightful piano numbers.

Registration Totals for S.C. Completed

Compiling the totals of the registration for social credit for the Didsbury constituency have now been completed and show a high registration as compared with votes at the last provincial election.

The total registration in the constituency was 3956, compared with 4261 ballots cast, or approximately 94 per cent registration for social credit.

According to the Acme Sentinel, a wealth of information as regards conditions in the constituency has been collected. An outstanding item is the four-and-a-half million dollar debt of registered persons—in one of the most prosperous districts in the province.

Teachers Organize.

A meeting of the teachers of the Didsbury district was held Saturday last when it was decided to form a Didsbury local of the Alberta Teachers' Alliance.

Following were the officers elected:

President: C. R. Ford.
Vice-President: R. Gulliver.
Secretary-Treasurer: E. Traub.
Press Reporter: Miss D. Huget.

Legislation was passed at a session of the Alberta Legislature making it compulsory for teachers to join the Alberta Teachers' Alliance.

Trees Available For Farmers

With reference to the all-important function of tree-planting in Alberta, it was learned in an interview given by Hon. C. C. Ross, minister of lands and mines, that certain types of trees were available to farmers for transplanting and could be secured for this purpose on application to the Forestry Division of the Department.

The principal object in view, Mr. Ross stated, was to provide transplants for replacement of less valuable species in shelter-belts and windbreaks, to introduce a more desirable product than the native variety found in the bluffs now in existence, and to give protection to such products by planting them in stands of trees already established so as to provide necessary shade for the new species to ensure a healthy and permanent growth.

Available for planting in the spring of 1937, the minister continued, will be limited quantities of white spruce, jack pine, green ash and elm. There will also be a small number of bur oak and Siberian larch with which the Forest Service has been experimenting successfully and of which a few may be given out for trial. In addition to these a large number of lodgepole pine, and Scotch pine, trees possessing healthy root systems, are available for distribution. These trees are recommended for planting in this province.

To avoid any possible confusion, application forms should be secured from the Director of Forestry, Department of Lands and Mines, Edmonton, the minister concluded. Forms properly filled out as to quantity and species required should be added, be sent in to the Department before the end of the present year for trees required for planting next spring.

Olds Have Strong Hockey Squad

Manager Hansen of the Olds Elks Hockey Club when asked what the probable strength of this year's team would be, gave the following line-up:

Coach: Gordon Savage, former defence player with the Montreal Canadiens in the N.H.L.
Goal: Ralph Maybank.
Defence: Vick Dick, Olds Elks; Bill Onufrechuk, Vegreville; Bob Gilles, Edmonton Dominions, and D. A. Gilles, Lussac Indians.

Forwards: Hube Gooder, Olds Elks; Ben Hayes, Olds Elks; Jiggs Goodrich, Calgary Rangers; Bennie Novicki, Calgary Bronks; R. Bromley, Calgary Bronks; Les Ferguson, Seattle Seahawks; Alex Luft, Seattle Seahawks; Fred Ritchie, Edmonton Superiors; Morrison, Wetaskiwin; Lux, Ponoka; Eddie Young, Medicine Hat; Reg Wallace, Macleod and C. Cook, Medicine Hat.

BIRTHS

at Didsbury General Hospital

October 20 to Mr. and Mrs. Tony Spooner a son, Richard Anthony.

October 26 to Mr. and Mrs. Emil Befus a son, Terrence Neal.

October 23 to Mr. and Mrs. J. W. Halton a daughter.

October 24 to Mr. and Mrs. Gene Gasser a son, Ralph Eugene.

Hallowe'en Party.

The Evangelical Church Young People's League gave a Hallowe'en party in the basement of the church on Monday evening.

The party was a novel affair with slideshows, house of thrills, games and stunts. The youngsters had a most enjoyable time.

Albright Brotherhood Elect Officers

At the last meeting of the Albright Brotherhood of the Evangelical Church the following officers were elected for the coming year:

President: J. V. Berscht
Vice-President: George Dippel
Secretary: C. R. Cunningham
Treasurer: Goldwyn Gabel.

Albertan Wins In Irish Sweepstake

Walter Snowden of Rochford Bridge near Edmonton, is feeling pretty good these days, as he was the holder of a ticket on the winner in the Irish Free State Cambridge-shire sweepstake. He had a ticket on "Dan Bulgar" who romped home to first place in the race held yesterday.

His winnings will be approximately \$89,000, but he would have been the winner of \$150,000 if he had not sold a half share in his ticket to an English bookmaker on Monday.

Snowden bought the winning ticket from the agent of the Pool Elevator at his town, who stands to win \$3,000.

New Broadcasting Corporation Takes Over Next Sunday

The Canadian Broadcasting Corporation, Canada's new radio authority, will take over control of the Dominion's national broadcasting system as from midnight on Sunday next. The corporation, with L. W. Brockington of Winnipeg as chairman of the board of governors, and Major W. E. Gladstone Murray as general manager, succeeds the Canadian Radio Commission headed by Hector Charlesworth.

Cars to Display Temporary "Stickers"

Thousands of Alberta cars are expected to be displaying shiny new "stickers" on the windshields when the new year opens.

These will be temporary licenses, permitting operation of the car until the annual license period opens on April 1 to conform with the government's fiscal year.

Government officials say that it will be necessary for those who intend to operate their cars during the first three months of next year to obtain the "sticker" license. Whether the fee for this period will be one-fourth or one-fifth of the annual license has not been settled yet, as the matter rests with the provincial government.

Under legislation passed at the spring session, the annual motor license period is to begin from April 1, 1937, instead of January 1, which has been the opening date ever since car licensing was brought into effect here.

WEEKLY JOKE

"I sent my little boy for two pounds of plums and you only sent a pound and a half."

"My scales are alright, madam. Have you weighed your little boy?"

Hunters Preparing for Big Game

The big game season opens on Monday next and several hunting parties are preparing to be on the ground when the season opens.

Bert Fisher, Frank Hesselton, Jack Topley and Jack Rindal will leave Thursday or Friday for their old hunting grounds at the head waters of the Big Red and expect to have better luck than during the sheep season.

Al. Studer, Cecil Adshead, Jack McCloy and George Murray are also preparing for their annual trek and will leave for the woods early Sunday morning.

Stewart and Harold Tighe, Ken McCoy and Sam Thompson are another party who are getting their war bags ready and will leave this weekend.

For several years these three parties have made it a point to get on the ground early in the hunting season, and they have the reputation of not coming back until they have got their limit.

From reports received both deer and moose are plentiful in the woods this season, but a disturbing factor is a report that the Indians have been worrying the game for the past few weeks.

WORLD HAPPENINGS BRIEFLY TOLD

Germans involved in automobile accidents henceforth will be submitted to a special blood test proving sobriety or intoxication, the ministry of the interior announced.

Extensions of lines and equipment costing \$6,750,000 will be made this fall in connection with the United Kingdom's government telephone services.

During July 65 persons were killed in highway accidents in Ontario, the Ontario highways department reported. The figure was the highest in any July since 1929.

Provincial relief inspectors checking a plea from Riverside, Essex county, for more provincial help, "found 22 relief recipients driving their own cars," Hon. David Croll, minister of public welfare, said.

Western Canada's wheat crop this year is one of the highest in quality, it was indicated in a report of James D. Frazer, chief grain inspector, to the annual meeting of the grain standard board.

A decline of \$85,000,000 in total cash income of United States farmers from July to August—when farm income usually increases—was reported by the agriculture department.

Declaring baby shows cause jealousy and unhappiness the Mothers and Infants Association at Croydon, England, declined to act on a reception committee at a national baby show in Romford.

Striking suddenly in United States cities from coast to coast, treasury law enforcement agencies had made close to 1,000 arrests and seized several hundred illicit stills in a drive against narcotic and liquor law violators.

New Gold Strike

Encouraging Reports Received From Yellowknife Mining Division

Confirmation of a new gold strike in the Yellowknife mining division of the Northwest Territories is contained in a message received by Hon. T. A. Cresser, minister of the interior, from A. L. Cumming, chief mining inspector for the department at Fort Smith, N.W.T.

The message stated the new gold strike is located on the east side of Gordon Lake, about 50 miles north-east of the mouth of the Yellowknife river, where it enters Great Slave Lake.

The original locators of the find were representatives of the Mining Corporation of Canada, who made the strike last July 15, staking 36 claims. Two weeks later, the A.X. Syndicate staked 100 claims in the area. On September 5 staking was carried out by representatives of Ventures, Limited, Fred Connell, the A.E. Syndicate, Karl Springer, Wood-Brown Syndicate, Burwash Yellowknife Mines, Limited. The Mining Corporation and the A.X. Syndicate are planning to carry on development work during "freeze-up."

Interest in the new strike is indicated by activity of companies engaged in prospecting and mining in the Yellowknife mining division. Approximately 600 claims had been staked up to now. Mining Inspector Cumming and Dr. A. W. Jolliffe, geologist of the Dominion department of mines, visited the area. Mr. Cumming's report stated the strike consists of a series of veins, lenses and shearing zones occurring in a belt 15 miles in length with showings of free gold. Width of the veins and lenses would indicate commercial tonnage if the samples stand up under assay.

"You say Jake takes everything literally?" "Yes, he was invited to a housewarming party and he took along some kindling and a box of matches."

Clear Of Debt

British Columbia Town Celebrates British Columbia Town Celebrates

A little pile of ashes was all that remained of Ladysmith's \$94,336 bonded debt. When coal mines there closed six years ago the town appeared doomed financially. Last spring a rebirth took place with the establishment of a logging company in this British Columbia town. A giant flagpole was erected on the site where the city's debt was burned, as if to signalize the passing of the coal digging era.

A new prosperity brought by the logging company has enabled the city to pay off its debts to the last cent. The city celebrated the occasion by burning the bonds in a giant bonfire.

WAKE UP YOUR LIVER BILE—

And You'll Jump Out of Bed in the Morning Ravin' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Harmful poisons go into the body, and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't always get at the cause. You need something that works on the liver as well. It takes those good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel "up and up". Harmless and gentle, they make the bile flow freely. They do the work of calomel but have no calomel or mercury in them. Ask for Carter's Little Liver Pills by name! Stubbornly refuse anything else. 25c.

Carry High Speed Cameras

Aircraft Being Built For Service In Northwest Territories

The second of three aircraft being built in Montreal for the department of national defence for service in the Northwest Territories has been put through tests. The planes are especially built for high speed photographic and transport work and carry sufficient fuel and oil for five and a half hours' work at high altitude.

At the rear of the cabins are mountings for three oblique cameras which photograph automatically through small apertures in the metal body. The aircraft are fitted with float landing gear and the normal wheel undercarriages can also be fitted as well as a special ski undercarriage for winter flying.

SELECTED RECIPES

SAND TARTS

$\frac{1}{2}$ cup butter
1 cup sugar
1 egg
 $1\frac{1}{4}$ cups flour
2 teaspoons Magic Baking Powder
White of one egg
1 tablespoon sugar
 $\frac{1}{4}$ teaspoon cinnamon
Blanched almonds

Cream butter, add sugar gradually and well beaten egg, then flour which has been sifted with baking powder, "chill" dough. Put half the mixture on floured board and roll one-eighth inch thick cut with doughnut cutter—brush over with white of egg and sprinkle with sugar and cinnamon which have been mixed together—split almonds and arrange on top, three halves at equal distance. Place on buttered sheet, bake 8 to 10 minutes in a slow oven. When baked the tarts should be a very delicate brown.

Closed Season For Squirrels

All shooting or trapping of red squirrels will be prohibited in Alberta this fall and winter, according to an order issued by the game branch. General scarcity of the little animals resulted in their being put on the protected list. In previous years there had been open seasons from Nov. 1 to March 31.

Henceforth, in Montreal, anyone who blows an auto horn between midnight and four a.m. will be liable to a fine of \$40 and costs or one month in jail. This will be apt to take the enthusiasm out of the tooters.

Eulogized Canadians

People Have Accomplished Miracles States London's Lord Mayor

Sir Percy Vincent, lord mayor of London, eulogized Canadians when he gave the court of common council an account of his visit to Canada.

"I shook hands with thousands of people, received the freedom of cities and a great number of civic welcomes," he said. "Above all, I found an unbounded enthusiasm for all things British, a love of England, a depth of feeling for this old city and its representatives which was most unbelievable."

"Never during our whole visit was there one word of adverse criticism. I heard on all hands that our visit revived or re-established a new view of England in its civic life and had far-reaching results which will strengthen the ties of kinship."

"Canadians have in a few score years accomplished miracles. I returned filled with an impression of a vast canvas on which they have as yet, with all untiring energy and splendid craftsmanship, but sketched the outline of a great and beautiful picture."

Hungary Using Esperanto

Employees Of Post Offices Being Trained In Language

Postal officials are now training their employees in the international Esperanto. Through the Universal postal union of Berne, the Netherlands postal administration has sent out invitations to the third international course for postal, telegraph and telephone officials, for a ten-day course. Banks are also using Esperanto. The Hungarian-Italian bank and the Hungarian general credit bank are both using Esperanto in addition to the language previously in use for correspondence. The banks have now sent out folders giving maps and information as to the location of their branches in Budapest and the rest of the kingdom.

American Animal Clinic

Doctors Will Treat Any Injuries In Memorial Hospital

A clinical service for pets—which treats blind turtles and mends broken legs of canaries—is maintained in Boston by the Merwin Memorial free clinic for animals.

Made possible by a \$60,000 trust fund donated by animal lovers and admirers of Henry C. Merwin, who presided over the Boston workhorse association for more than 20 years, the clinic was founded in 1929 as a memorial to him.

Here pets of all sizes, descriptions and breeds are treated by Dr. Terrence Burke, chief veterinary, and his assistant, Peter Simpson.

Protege Of The Queen

Young Orphan Boy Will Receive A Secondary Education

Queen Mary presented for admission to the Royal Infant Orphanage, Wanstead, a two-and-a-half-year-old orphan boy who will be maintained there and receive a secondary education until he is 16. He is Brian William Frank Roberts, whose father, a chief steward on the Orient line boat, the Otranto, died last year. His mother died at the age of 24.

An official of the orphanage explained Queen Mary had the right of nomination to the institution of two children, so that there is always a protege of hers at the orphanage.

Land Salvaged In India

Forty Million Acres Reclaimed By British In Fifty Years

British India leads the world in territory that has been reclaimed or irrigated during the last fifty years, according to the latest report of the Central Irrigation Board of India, just published at India Office, London. The total of desert land irrigated and swamp and marshes reclaimed now borders on 40,000,000 acres, 31,000,000 of which are in British India.

The second country for the amount of land reclaimed in ten years is Italy, with just under 6,000,000 acres. In India the land reclaimed alone amounts to 7,000,000 acres; the balance laid down to cultivation has been irrigated.

When the present projects in India shall be completed 50,000,000 acres of land will have been irrigated; today what has been done furnishes work for just that number of people, who own or work crops which give forth \$375,000,000 worth of produce—principally rice and beans, while the quantity of water used daily is about 260,000,000 gallons, extracted from over 75,000 miles of canals and distributed by over 50 great dams and hundreds of smaller ones.

Commodore Gooderham, of Toronto, urges car drivers to take up sailing to learn courtesy, but that's just the trouble. Too many motorists already know how to sail along the highways—too fast.

Made Himself Popular

Berlin's Chief Of Police Stopped Tooting Of Horns

For once the chief of police in Berlin is popular. His plan of marking noisy automobile drivers has brought peace. He ruled that anyone tooting his auto horn too loud or too frequently must have his car painted with a large yellow spot. After a few had received the decoration others became quiet, and peace reigned in the city which not long ago was called one of the noisiest in Europe.

Crochet an Afghan Square by Square

Household Arts by Alice Brooks

Rising Sun Motif Uses Up Wool Scraps

PATTERN 5668

A soft, warm afghan's practically a necessity when one lies down for a cat-nap, and here's one that even brightens your slumbers. Called "Rising Sun", it's easily crocheted blocks are done in three shades of one color, on a dark background. Thus a stunning effect's obtained. Crochet the blocks in the same, or different, colors and use up scraps of wool. Make a pillow too. In pattern 5668 you will find directions for making the afghan; an illustration of it and of the stitches used; material requirements, and color suggestions.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg.

Thou Shalt Not Love

— A NOVEL BY —
GEORGIA GRAIG

CHAPTER VI.—Continued

As their eyes met she had a premonition that she and this blonde representative of the aristocracy of old New York were fated to clash more than once. Thinly veiled antagonism clashed between them, almost a thing you could see, instead of merely feel, in its intensity. Starr sensed the trouble with Stephanie at once. The girl was jealous of Michael Fairbourne's attentions to "Play-Girl," and now that she had seen Starr, all Michael's protests that his interest was purely in his firm's behalf were under scrutiny by Stephanie, who was inclined to have thoughts of her own on the subject.

Starr's mocking smile deepened. Her supercilious pose was heightened. There was a hint of devilment in her voice as she answered:

"I am interested to meet you, too, Miss Dale. Hassan—oh, dear, will I never remember to say Michael!—has told me so much about you."

For a second naked venom burned in Stephanie's blue eyes. She flung at Michael in a brilliant voice:

"Better be careful to whom you speak of me, Mike, darling. I certainly don't want to be put between the covers of one of Starr Ellison's 'true confessions'!"

Starr caught her breath sharply, as though she had been slapped in the face. She closed her eyes, and on opening them, all at once she found herself alone. Stephanie had turned away unceremoniously. Someone had claimed Michael's attention for the moment. Starr looked around, bewildered.

A voice caught her ears. Stephanie's frosty voice. Deliberately loud, so that Starr could not help overhearing. Stephanie was saying to somebody:

"I think it's simply terrible that poor Mike has to be associated with a creature of her type, even though it's merely in a business way. His firm is handling her book, you know, and they've insisted on his attending to her publicity. . . . As if she needed any more! But Mike's so clever. . . . And of course he's expected to be nice to her on the firm's account, sort of act as a master of ceremonies, as it were. . . . But, my dear, it's perfectly galling when decent people have to pander to a common adventuress!"

CHAPTER VII.

Starr flushed to the very roots of her hair. So that was the story Michael had told Stephanie! Her red mouth set in a bitter straight line. She might have known. Though surely Michael owed a shred more gallantry than that to the girl who was helping him carry out his fantastic whim? No matter how little he knew of her—or cared to know. No matter what he imagined her previous life had been. He should have some little consideration for her. If his book made him rich enough to marry Stephanie Dale, she of the stiff-necked aristocracy, it would be partly because of the brief part played in his life by Starr Ellison.

Starr was jolted out of her temporary embarrassment, her moment of quick resentment, by a man's voice. At first she thought it was Michael. But the eyes looking down into hers were as black as her own. Instead of gray. The face was leaner, and the hair incredibly sleek, where Michael's black hair had an arresting wave.

The man smiling at her said: "I believe I'm the only man here who hasn't been introduced to you. I'm beginning to wonder if the oversight isn't deliberate."

Starr recognized him. True, she had not met him, but she remembered Michael saying:

"See that chap over there—dark-complexioned chap with the Menjou look? That's Lance Marlowe. If my book had been 'Play-Boy' instead of 'Play-Girl,' Lance is the very type I would have picked. He's tailor-made for the part. He's been a play-boy for twenty years—always will be, I guess."

IN BED FOR WEEKS WITH BACKACHE

Quick Relief With Kruschen

It was advice from her mother that led this woman to take Kruschen Salts for her backache, and before she had finished the first bottle she was feeling better. This is the letter she writes:

"About this time last year I had severe pains in my back and was prostrate for three weeks. I could not even rise in bed. I tried several well-known remedies, but to no avail. Then I wrote to my mother telling her of my trouble. She wrote to me by return of post urging me to try Kruschen Salts. I immediately bought a bottle and I can truthfully say before I had taken the fifth dose I could sit up. I kept on taking them and in less than two weeks I was about again. I am never without Kruschen now."—(Mrs.) A.G.

Unless the kidneys function properly, certain acid wastes, instead of being expelled, are allowed to pollute the blood-stream and produce troublesome symptoms: backache, rheumatism, and excessive fatigue. Kruschen Salts is an excellent diuretic or kidney aperient, valuable in assisting the kidneys to excrete acid impurities.

"I don't suppose he ever found any good reason for being anything else, and it seems to have been wished on him. His father left him a fortune. He has a yacht, a string of polo ponies, all that sort of stuff, but so far as anybody knows he has never done an honest day's work in his life. Or any other kind. His favorite indoor sport is buying diamonds for his current light o' love, and they come and go in quick procession. Also, and this is important in the eyes of a good many New Yorkers who still cling to such outmoded ideas as decency, as far as the honor and chastity of women are concerned he is probably the most dangerous man in New York!"

Starr felt a little tingle of excitement when the man whom Michael had so sketchily characterized spoke to her. It was a long moment before she answered his greeting. And then her reply was in keeping with the role she was playing.

She drawled, with a slow smile, as her long eyes lifted to him lazily:

"Perhaps Michael believes in saving the best for the last."

Lance suggested: "Or perhaps he is not unaware that a friendship unconventionally begun is always all the more thrilling."

Starr laughed, and Lance hurried on, his black eyes burning down at her: "Now that we have met, am I not going to have the opportunity for you to tell me all about yourself?"

Starr's eyes dropped demurely, then she lifted them—for the scantest fraction of a second to say:

"There's nothing left to tell about me—that everybody doesn't already know. . . . I might begin at the beginning, though, and tell you I'm free, white, and twenty-one, and—"

"Adorable!" whispered Lance, his voice husky. "Will you dance with me?"

Starr held up her arms and they glided into a dance. He was pleasant to dance with, lithe and graceful, and when the music slid from a waltz into the haunting throb of a rumba, with the waves of the Spanish music holding in its depths the suggestion of the emotional pleading of love in a setting of moonlit balconies and patios inside rosy walls, slow-eyed sonnetas with mantillas, Starr's steps fitted perfectly into Lance's skilled footwork. Her own perfection was the result of Michael's teaching.

Lance's sleek black head bent closely over hers.

"How has such a girl as you ever managed so long to remain incognito? If you've been anywhere I've been, you've certainly been hiding behind dark glasses."

"Sometimes I wear a long gray beard," Starr murmured.

"And now?"

"Oh, the usual answer," Starr whispered lightly. "It was shown to me plainly how greatly it would be to my advantage to take off my mask. Money, dear man. . . . My appetite for buckschish is insatiable, I assure you."

Lance laughed softly. "Money! What a conversation for such a glorious dancer! And here I am trying to think of enough words to try to tell you how gorgeous you are—you, with your Cleopatra eyes, and—his head bent lower as he

whispered—"your adorable red lips that nobody knows better than you were made for a hundred kisses. . . ."

Starr drew back from him a little and looked up into his eyes. Her whisper seemed shocked.

"Only a hundred?" she asked.

"And I had thought—"

"Just the appetizer, my dear," Lance laughed. "There would be a full menu ahead."

Starr studied the man as they danced. His face was not unpleasant. He had a full, rather sensuous mouth, and the bright, roving eyes of a restless pleasure seeker. At such close range she could not see the tiny lines of dissipation marring his well-shaped features, yet even so he looked younger than his years.

She wondered how she was doing with her verbal fencing with him. Was she saying what might be expected of her? The most dangerous man in New York! Well, it was an apt meeting. Did she not bear the reputation of being the most dangerous woman? Play-Boy and Play-Girl!

They talked a great deal as they danced, and it was a relief to bandy light chatter with someone who skimmed over the surface of life. The tilt with Stephanie; the long hours during which she was being coached for her part by Michael; the near, dizzy attraction of Michael—all had combined to stir emotions deeper than Starr Ellison had any right to feel. She must not let herself feel too deeply about anything. Her time was too short, and feelings could be so poignant.

Lance Marlowe was exactly the right antidote for her. He was incapable of feeling deeply. Of that Starr was instinctively certain. The world for him was not what it was to most. It was his playground. That was the way it must be for her. It had all been settled. For Starr Ellison the world must be her playground—for her brief six months!

It came to Starr all at once that Lance Marlowe was one man who could show her how to crowd a lifetime of thrills and excitement into every single day, if she would let him.

He was saying, as they swept down the long glittering floor of the ballroom:

"I still can't see, all joking aside, why you've remained anonymous so long. Were you afraid? No—" he shook his head—"Now that I've seen you I can't believe that's the reason. It must have been out of consideration for your less fortunate sisters whose pale beauty is dimmed by your Egyptian princess brilliance, Starr. There's no need for all that Egyptian ballyhoo in my case. I'd have known it for the truth no matter where I saw you, nor under what circumstances." He laughed, with a lit of understanding exultation in his voice. "But how you're going to make them all suffer now!"

It was a charming thing for a man to say, but Starr thought the words passed his lips just a little too glibly. She shot him an amused glance from beneath her long, silken lashes.

"I suppose that's your usual line for every new woman you meet?"

Biggest News Figure

King Edward Voted Most Outstanding Headliner In World

A group of publicity men, movie scenario writers (male) and newspaper reporters assigned to Hollywood were gathered around the luncheon table when the talk veered to just who would be termed the outstanding single popularity headliner in the world.

They meant, what one person had most publicity value in the attention if, for instance, he went to Hollywood at the same time as other outstanding persons arrived there.

The unanimous opinion of the hardened press agents and reporters—all of them accustomed to see glamour and headlines spilled all over the place—was that King Edward of England at present represents the world's greatest current personality prestige.

How Gasoline Is Wasted

A large amount of gasoline is wasted by the average driver. Sources of waste include improper carburetor adjustment, unnecessary idling or racing, high-speed travel, neglect of lubrication, leaking piston rings, sticking valves, soft tires, and many others.

Mildred Mae McKenzie, supervisor of The Ogilvie Flour Mills Institute of Household Science, will send free information on cooking, baking and housekeeping problems, upon receipt of coupon from a bag of ROYAL HOUSEHOLD FLOUR. Address Mildred Mae McKenzie, care of The Ogilvie Flour Mills Co. Ltd., Winnipeg, Man.

Ogilvie ROYAL HOUSEHOLD FLOUR is triple-tested to help ensure your success in baking—tested for wheat quality before milling, for flour quality during milling and for baking quality after milling—all before you buy. Whether for bread, cakes or pastry, its uniformity and absolute dependability will simplify your baking to an amazing degree.

CHELSEA BUNS

(Quick Method)

Temperature: 400°F.-375°F.

Time: 30 minutes

1 cup milk; 2 tablespoons sugar; 1 tea-

spoon salt; 1/2 cake fresh yeast; 2 table-

spoons lukewarm water; 3 cups Royal

Household Flour; 1/4 cup sugar; 3

tablespoons butter.

Filling

2 tablespoons softened butter; 1/4 cup

Sultana raisins; 1/4 cup brown sugar;

1 1/2 teaspoons cinnamon.

METHOD: Scald milk, add 2 tablespoons

sugar and salt; cool to lukewarm. Dissolve

yeast in lukewarm water and add to milk

mixture; add 1 cup flour. Beat until smooth.

Let rise in a warm place until foamy. Add

remaining sugar, flour and butter. Turn on

floured board and knead until smooth and

elastic. Place in greased bowl; let rise until

light. Punch down to release gas bubbles.

Knead lightly and roll 1/2 inch thick. Spread

with filling; roll as for jelly roll. Cut with

sharp knife or scissors, into one inch slices.

Place close together on greased baking

sheet. When light, bake in moderately hot

oven. Entire time for making these buns is

approximately 4 hours.

Little Helps For This Week

All the paths of the Lord are mercy and truth to such as keep His covenant and testimonies. Psalm 25: 10.

Speak Lord, for Thy servant heareth.
Speak peace to my anxious soul.
And help me to feel that all my ways
Are under Thy wise control;
That He who cares for the lily,
And feeds the sparrow's fall,
Shall tenderly lead His loving child;
For He made and loveth all.

It is not by seeking more fertile regions where toil is lighter and circumstances free from difficult complications, but by bringing the high courage of a devout soul, clear in principle and aim to bear what is given to us, that we brighten our inward life and introduce the kingdom of heaven into the midst of our earthly day. If we cannot work out the will of God where he has placed us, then why has He placed us there?

Airplanes are carrying nearly one half of the first class mail from Singapore to London.

Jethro Wood, the man who invented the modern plow, whittled his first models out of potatoes.

IN UP-TO-DATE STABLES

—Old Reliable Minard's

When horses come in to stable with wire-cuts or saddle boils, or cows have caked udder, the thing to do is get the Minard's bottle at once. As Mr. Dowd of Glenboro, Manitoba, knows. He writes:

"I like your Minard's Liniment. Like to have it in the house. I have found your Minard's Liniment especially good for barbed wire cuts on horses."

A family doctor prepared Minard's Liniment over 50 years ago. Still invaluable in every stable and every house.

J. E. Gooder - Editor & Manager

The Whole Truth.

A number of speakers over the radio lately have been telling the newspapers that it is the business of the press to print "the truth, the whole truth, and nothing but the truth."

This is rather a large order, and few newspapers presume to cover such an amount of territory. It implies an omniscience that the press does not possess. The best that a newspaper man can do is to present the truth as he sees it, or can learn it. On matters even of small consequence he goes to an immense amount of trouble, sifting away the trimmings of gossip and rumor, to reach as nearly as possible the kernel of fact. And a dry, lifeless kernel it usually turns out to be, far different from the sensational stories passed along by word of mouth.

There are a few things that are either true or false. The date of an occurrence is definite. The place of an occurrence is definite. But to record the actual occurrence is much more difficult. It is rarely that any two people gather identical impressions. It is rarely that two reports of the same incident are exactly the same, yet both parties believe they are telling the truth and the whole truth. What is truth?

In recording the actions and speech of human beings, newspapers are handling potential dynamite. Every line that is written may contain a disputed point. It is simply the truth as the reporter sees it, or as someone else has seen it. The same words fall upon different ears, bringing an entirely different interpretation when repeated. Human eyes and ears are not infallible.

Newspapers do not claim to print the truth, the whole truth and nothing but the truth. But they do hold as an ideal, "Malice toward none." And that is the most that a tolerant public expects.

Again, in the vast amount of unimportant news which a paper handles, it is a question whether the public is strong enough to stand the truth. About one week of unadulterated truth-telling would close the doors of a newspaper office. Everybody knows that there are cases when stark truth should be modified and clothed with mercy and kindness, which also are virtues. As the Vegreville Observer says: "In newspaper offices the truth has to be softened very considerably, otherwise the cemeteries would be filled with dead editors. But holding fast to that which is good, and overlooking the faults and frailties of our fellowmen, we have tried to avoid pushing anybody into hell any faster than he ought to go."

An ideal by which most newspapers are guided, is to make the community a happy, law-abiding place in which to live; to emphasize the good rather than the bad, and to be as accurate as is humanly possible in all matters of moment. —Vulcan Advocate.

Notes From the West.

Mrs. F. Byrt was the guest of her daughter, Mrs. E. Fisher, last week.

Mrs. W. Blain was a Sunday visitor with Mrs. Dobson.

Mr. and Mrs. Harvey Hosegood spent the weekend visiting relatives and friends at Clive.

Mr. and Mrs. A. Orde, Arnold Hogg, Mr. and Mrs. L. Holmes, were all Calgary visitors Saturday.

Mr. and Mrs. P. Hosegood were Sunday visitors with Mr. and Mrs. Eddie Krebs.

Messrs. E. Lowrie, J. Dalton and M. Campbell attended the stock sale in Calgary last week.

Miss Connie Hosegood is convalescing at her home after a recent operation for appendicitis.

A shower in honor of Mrs. Eggleston (nee Annie Lucas) will be held at the home of Mrs. Blain on Thursday afternoon.

Mr. and Mrs. F. Byrt entertained the young people on Sunday in honor of the 16th birthday of their daughter Barbara. The afternoon was spent in games, under the able direction of Tom Dobson and Charlie Byrt.

Items of Interest

A federal grant of \$1,800.00 has been made to cover the Dominion expenditures for feed and free freight to give relief to the drought area in Alberta until March 31 next, it was announced last week by John Vallance, chairman of the committee named to administer the Prairie Farm Rehabilitation Act. He conferred last Tuesday with provincial officials. No figures were available on direct relief which the Dominion has undertaken.

Exchange of goods for Alberta wheat on a barter system "would be very acceptable to us provided proper financial arrangements could be made," stated Robert Murray, director, and R. W. Leckie, secretary-director of the Scottish Co-operative Wholesale Society of Glasgow. With D. Muir, manager of flour mills and grain buyer for the society, the co-operative directors from Glasgow were interviewed at Edmonton on their arrival from Saskatoon on an annual Canadian tour. It is likely that the officials will confer with Premier Aberhart.

Licensing of Alberta newspapers is threatened by Premier Aberhart was not supported by a majority of Social Crediters at the Athabasca constituency social credit convention last week. A resolution urging that newspapers of the province be licensed was defeated by delegates to the convention.

Look At It This Way!

A retail store regards itself as being a public servant. Therefore, it is wholly fitting that it should try to be the best and most eager servant possible. A retail store which hides itself from those whom it wants to employ it, becomes under employed, and so its sales decline.

The public inclines in largest numbers towards those stores which seek its attention and custom. It takes the advertising store at its own valuation. It likes to do business with those who manifest eagerness to serve it. It likes to buy at those stores which have to renew their stocks frequently.

Advertising is just communicating news and information about one's store and service. It is just a form of talking. It is those who are listened to. Silent stores lose out to stores which carry on conversation—in the form of newspaper advertisements—with those whose custom they want.

Any retailer who wants to get more customers—for the replacement of customers who become lost to him and for the expansion of his business—can surely get them by making his store important in their eyes, by putting in his advertisements the kind of information which will help buyers come to decisions.

The Pioneer advertising columns are the cheapest and most effective manner in which to get your message before the people you wish to cater to.

The World of Wheat.

By H. G. L. STRANGE
Director "Crop Testing Plan."

Wheat prices have bounded up.
Why?

Simply because the excess, or
burdensome world's surplus, has
disappeared—it has been eaten up!

So a heavy burden that has been
difficult and expensive to carry has
at last been lifted from the backs of
our Canadian farmers.

Before 1928 the world, with an
average production and consump-
tion of some 5,400 million bushels,
usually carried over each year about
600 million bushels, but in 1928
many countries experienced an
extraordinary yield to the acre, and
so the year-end surplus suddenly
and greatly increased.

More than this, during the years
of the depression people ate less
bread, all of which resulted in the
usual 600 million bushels surplus
growing by 1934 to the vast amount
of 1,158 million.

Since 1934, however, several
important wheat producing countries
have suffered from very poor crops,
and the world has actually produced
less than it has consumed, and so
the world's large burdensome sur-
plus each year has been drawn upon
until now it has completely dis-
appeared. Not only is this the case,
but as well there will be, I calculate,
on August 1st next only 400 million
bushels in the world's cupboard for
a carryover, instead of the usual
600 million.

Just as the increasing surplus
depressed prices from 1928 to 1934,
so it seems have prices risen as the
surplus in turn became less.

The following factors have ap-
peared that have had the effect of
pushing wheat prices up: Lack of
rain in Australia.—France is resum-
ing wheat importations.—European
rye crop is 6 per cent less than last
year.

Factors depressing prices have
been as follows: Large wheat ship-
ments from Australia, Argentina,
Danubian area, India and other
countries.—Seasonable weather for
fall work in Europe.—European
demand for wheat declining.—
Favorable conditions in the United
States winter wheat belt.—Increased
estimates of Japanese rice and
Chinese wheat crops.

Knox United Church Notes.

The pastor will be in charge of the
services next Sunday, when he will
give the third study on the general
theme of the "Sermon on the
Mount." The Junior Choir will
have charge of the praise and will
give a special number. A cordial
invitation is extended to all.

The Official Board (representing
all appointments) will meet on Fri-
day afternoon, October 30 at 2 p.m.
in Knox Church. We urge the
attendance of all officials.

Evangelical Church Notes.

The Didsbury Branch of the Cana-
dian Legion of the British Empire
Service League will attend our
church service at 7:30 p.m. on the
Sunday preceding Armistice Day,
being the 8th of November. A
general invitation is extended to all
others who may desire to worship
with us at that time.

monia in the Holy Cross Hospital.
His condition is much improved,
although last week he was so gravely
ill that his two grandmothers, Mrs.
W. McCulloch and Mrs. H. Viney,
were called to his bedside.

WEEKLY SERMONETTE

A tailor will place a piece of ab-
sorbent paper over a spot of grease
and press down on it with a hot iron;
the warmth melts the grease and
the paper absorbs it. This is the
way that love defeats bad situations.
It simply absorbs them. This is its
peculiar power. The fact is the
world was made to run by the law of
love—and love is the best hand for
controlling it.

Can You afford to Use More ELECTRICITY?

If at present you are a user of Electricity you know that you could not afford to be without it. But, if you use it only sparingly, you are not taking full advantage of the services which are available.

Even at the basic rate Electricity is cheap; but once enough energy has been used to satisfy your minimum requirements a FEW ADDITIONAL CENTS will bring you MANY ADDITIONAL HOURS of convenience in the use of an Electric Washer, Vacuum Cleaner or Refrigerator, and of comfort and enjoyment in the use of a good Reading Lamp or the operation of your Radio.

Where can you obtain greater value for so small an added cost as in the full use of your Electric Appliances? What small investment in your home will return you greater, or even equal dividends in comfort and leisure?

The more Electricity you use, the less it costs.

Our local representative will be
glad to show you why.

Education And The Teacher

Few people look upon periods of depression such as Western Canada has experienced in the past few years, along with most of the other countries of the world in varying degree, with complacency. On the contrary here, as elsewhere, such experiences are usually regarded by the great majority as periods of unadulterated evil, with dissatisfaction and unrest their inevitable concomitants.

It is customary, under such conditions, to surround everything with a halo of gloom. Everything is wrong at home and abroad. Words and deeds are subjected to criticism in an intensive search for microscopic flaws and motives are probed with deep, underlying suspicion. Altruism and faith in fellow mankind almost appear to have gone into hibernation and the whole stream of life seems to be ruffled with turbidity. Criticism is the order of the day.

Criticism of the right type and with the proper motive behind it has, of course, its place in the scheme of things. In fact, without it, there could be little if any progress, but if it is to fill its appointed role in life, it must have behind it a sincere desire to promote betterment and must be dictated by reason rather than swayed by blind passion.

The educational systems and educational methods in operation in the prairie provinces are among the many things which have had to run the gamut of the critical vogue of the period. The criticism which has, in recent years, been voiced freely at conventions, school board sessions, public meetings and during election campaigns in the home and on the street comes not only from parents of children attending educational institutions and the general public but also from educational authorities, teachers and others trained in the craft of pedagogy.

One hears, on the one hand, that the educational system is too expensive and too extravagant. On the other hand, governments and trustees are accused of parsimony. One day the people are told that, in effect, the educational system and set-up is lagging behind the times and the following day, that it is too far advanced for the requirements of present day social conditions and requirements.

As to methods, curricula, equipment and text books, criticisms are legion and varied, so much so, in fact, that it would take a ponderous tome to even list them.

While it may be very difficult, and perhaps impossible to crystallize all these opinions and criticisms into some co-ordinate form which might enable them to be attacked and dealt with on a scientific basis, the existence of so much discussion on such an important topic demonstrates, at least, that the depression is having the beneficial effect of arousing a keener interest in a topic of vital interest to the future welfare of the country, because it cannot be denied that the trend of education of the youth of today will largely determine the destiny of the nation tomorrow.

Because of this it is highly important that there should be some unification of majority opinion on educational systems, methods and trends.

There are one or two things which should not be lost sight of in this welter of discussion which often, unfortunately, ranges around comparatively trivial details. That is, the main purposes of educational systems, which might briefly be enunciated as the intention of developing a desirable type of citizen and of developing a citizen capable of fitting himself or herself into the life of the community.

This means the development of a race of people with character and ability to think and act for themselves. If this is borne in mind as the chief objective of education, the great importance of the character and ability of the teacher becomes immediately apparent, a matter of far greater importance than the method, the text book or the curriculum, of even greater importance than the type of building in which instruction is carried on or the equipment that is used in imparting information.

The statement is not made with any intention of conveying an impression that the schools of the west are not staffed with teachers of character and capacity. On the contrary, the standard of the teaching profession has improved very materially and rapidly for so young a country as the Canadian west and teachers of the present day generally represent a high standard.

But it should be pointed out that if more emphasis is laid on the character and ability of the teacher as an essential of the first importance, the controversies over many other phases of the educational system would assume their rightful comparative values and would be relegated to the rear as questions of more or less minor consequence.

Smith had called on his tailor with a complaint.

"Isn't this bill rather steep?" he said.

"You should know best, sir," said the tailor, "for it was run up by you."

More persons over 60 years of age live in Switzerland than in any other country in the world.

Marie Antoinette was imprisoned for more than a year before her execution.

Japan Buys Canadian Ship

Merchant Marine Freighter Has Been Sold Five Times

Apparently under permanent ownership at last, the former Canadian government merchant marine freighter, Canadian Leader, sailed from Halifax with a Japanese crew for the West Indies to pick up a cargo of scrap iron consigned to Japan.

Since her sale along with nine other government steamships last winter to the Montreal-Australia-New Zealand line, the Canadian Leader has had a checkered career. She was sold by the Anzac line to the British Tower Steamship Company, resold to Rethymnis and Kulkundis, Greek shipping company, and finally bought by Japanese interests at a price reputed to be \$82,500. It was also reported Japanese interests had bought the Canadian Victor, now in England, and the Canadian British at Montreal.

A Brand New Industry

Calling Elk For Photographers Is Job Of Banff Guide

Banff has a brand new industry which was invented by Les Saunders, of Bowden, north of Calgary, who is a trail guide there in the summer. On long pony trail trips he amused guests at the Banff Springs Hotel by imitating the peculiar mating call of the elk. It was not long until he found bull elk answering him, and finally approaching near to investigate. Now he is kept busy calling elk from the woods for enthusiastic photographers.

It is said that it is possible to make a razor blade that would keep its edge indefinitely without stopping, but such a blade would cost approximately \$25.

To Help You AVOID MANY COLDS

At the first nasal irritation or sniffle, apply Vicks Va-tro-nol—just a few drops up each nostril. Used in time, it helps prevent many colds entirely.

VICKS VA-TRO-NOL

For Coronation Day

State Coach Of Speaker Of The House Being Reconditioned

The state coach of the speaker of the House of Commons is being refurbished up for the coronation.

Its last appearance was at King George's jubilee, when the speaker rode in it to St. Paul's. At King George's coronation in 1911 it merely conveyed the speaker from the House of Commons to the abbey, a distance of less than 300 yards.

Oddly enough while the coach, with harness and stabling, is provided by the state, the speaker has to arrange himself for horses. For nearly a century Whitebread's brewery has had this privilege, which dates from the time when Mr. Speaker Shaw-Lefevre married a Whitebread. The coach weighs nearly 3½ tons, and having no brakes cannot go down hill.

"I hear you're going to be married, old man! I hope you'll be very happy."

"Well, I don't see why I should not. I came through the War all right."

The home economics page has a recipe whereby rhubarb can be kept indefinitely. That's a good idea; keeping it indefinitely.

Show Their Patriotism

Thousands Of Families Change Swedish Surnames To Finnish

Thirty thousand families have officially changed their Swedish surnames to more Finnish-sounding ones. This wave of patriotism follows the example of 25,000 families who did the same at the recent Kalevala (national epic) centenary celebrations. Considerable confusion has resulted from this sudden change, states a message from Helsingfors. Postmen, particularly, are finding it a problem to deliver letters to the right people, and correspondents have to think twice when they address business and personal friends.

Breathes With Iron Lung

Birdsall Sweet, now 18, has completed the fifth year he has spent with an "iron lung" to aid his breathing. Hospital attendants in Beacon, N.Y., described his spirits as good and his growth in height and weight nearly normal. His treatment began after an attack of infantile paralysis.

Our sins will find us out, but they can generally be relied upon to call again.

England has some 8,000 parish councils.

NEW PLUG-IN

NEW JACKET

YOUR NEXT 'B' BATTERY

ALWAYS A LEADER in battery improvements, Eveready this year presents the Layerbilt with a new "plug-in" socket. With each Layerbilt comes an adapter—a flat disc with connectors and pins. Simply attach the wires from the set to the connectors and plug the three pins into the one socket which is firmly embedded in the top of the battery.

This "plug-in" is an extra advantage for the famous Layerbilt—the only battery built in layers—the modern invention which gives 40% more power than round-cell types.

Pay a few more cents for Layerbilt—and have many hours more of trouble-free service. During the life-time of your set, Layerbilt will save you many dollars.

EVEREADY LAYERBILT RADIO B BATTERY

BUILT IN LAYERS FOR POWER...LONG LIFE

Freight Revenues Of Railways Seriously Reduced By Truck Competition

Gross freight revenues of the Canadian railways have been reduced \$38,000,000 a year by competition of trucks operating on the highways, and the damage to the net position of the railways is approximately \$34,000,000 per year. These figures were placed before the maritime board of trade at its annual meeting at Charlottetown in an address by S. W. Fairweather, director of bureau of economics, Canadian National Railways.

The railways, he said, were regulated in the public interest both as to rates and services, and had to provide for equalization of rates to markets over wide areas, the development of new territories, the encouragement of basic industries by freight rates lower than commercially justifiable and the maintenance of regular services, even in cases where there was no profit in doing so.

The general principle in effect was that the railway must take the rough with the smooth, and if it cost millions of dollars to keep a railway open during the winter season, the justification for this was that the loss could be recouped from next summer's business. Frequently, also, railways were called upon to make special concessions in rates to meet temporary distressed conditions such as drouth. These special burdens carried by the railways were not onerous so long as the railways were able to assess charges on the average to cover the cost.

Now the motor vehicles and the highway, acting in combination, had changed the situation. The highway was provided by the state and at a cost to the motor truck much less than its real cost. The trucks represented relatively small capital investments and the industry was so young that rates of wages, hours of labor and working conditions were still in a chaotic state but at a low level. In addition, the trucker was able to avoid the carriage of bulky and low value commodities. These the railways often carried at a charge of less than one-half cent per ton per mile.

The trucker could concentrate on the high-grade commodities where the charge for transportation by railway would be from 10 to 15 cents per ton per mile and, in addition, the trucker was under no obligation to maintain a service unremunerative or seasonal in nature.

Last winter the Canadian National spent \$70,000 in maintaining service on a certain branch line in the maritimes. Over \$35,000 was spent in clearing snow and ice. The total revenue from that branch line during the winter months did not exceed the cost of snow removal alone, to say nothing of the provision of train service. Yet this branch line was subjected to highway competition for over two-thirds of the year.

Mr. Fairweather said that the provincial governments were in the transport business in a big way and he suggested that they might very well see to it that they were receiving in return from this industry what the expense had been to the state. In 1934 total maritime provinces highway costs amounted to over \$9,000,000 while the gross revenues from motor vehicle license, gasoline taxes, etc., amounted to only about \$4,000,000.

Placed On Free List

Duty On Indian Corn Cancelled Until End Of Year

Due to drought and other causes available supplies of Indian corn in Canada have become depleted. Consequently up to the end of the year this commodity will be imported into Canada from treaty countries duty-free. This was announced by Hon. J. L. Halsey, revenue minister.

This means that Indian corn now may be imported with the duty of 10 cents per bushel intermediate tariff eliminated.

Under the French treaty Indian corn was subject to an impost of 25 cents a bushel, and under the United States Trade pact, 20 cents. The general tariff rate is 25 cents a bushel.

Eskimos Are Enthusiastic

See Abundance Of Food And Clothing In Reindeer Herd

The economic security of Canada's Eskimo population may rest in a herd of 3,800 reindeer quietly browsing on the barren lands of the Mackenzie River district under the watchful eyes of government herds-men.

Harvey W. Nesbitt, for the past two years superintendent of the government reindeer station near Ak-lavik, is in Ottawa on furlough, firm in the conviction the big herd will revolutionize living conditions in the Arctic.

Within a year or two the herd will be big enough to split into sections, and Nesbitt believes the time will come when reindeer will be scattered throughout the barren lands, a new reservoir of food and clothing for Eskimo, trader, trapper and missionary.

In the Arctic, a reindeer is a sort of walking clothing store and butcher shop for the natives. Each carcass dresses about 150 pounds, and the skin makes the finest clothing. Nesbitt, even after two years of it, claims the meat is tastier than beef, lamb or pork, and he says he never tires of it.

The Eskimo, Nesbitt says, are enthusiastic about the reindeer experiment, and there is no shortage of men willing to be trained as herds-men. They can see security for themselves in the big herd, abundance of food and clothing.

As a parting suggestion, Nesbitt said it might be a good idea for Olympic scouts to see his herds-men before selecting Canada's next ski team. Every day in the long winter months the Lapps and Eskimo travel 25 to 30 miles on skis over the tundra, up and down the hills, and "they can show some of your eastern skiers a thing or two about jumping and cross-country work."

League Against Rheumatism

Form Saskatchewan Branch Of Society For Study And Control Of This Disease

Organization of a Saskatchewan branch of the Canadian Society for the Study and Control of Rheumatic Disease was set under way at Saskatoon by resolution of the Saskatchewan Medical Association in convention. A committee, under the chairmanship of Dr. Duncan Croll, Saskatoon, was appointed to collect data so that comprehensive statistics might be available for the national organization.

Members of the committee are: Dr. B. M. Baltzan, Saskatoon; Dr. W. A. Harvie, Regina; Dr. R. W. Kirkby, Prince Albert; and Dr. F. D. McCulloch, Moose Jaw.

Formation of the new provincial organization followed establishment of the Canadian body last February to affiliate with the International League Against Rheumatism, having headquarters in Amsterdam.

Glass Office Building

New Style Structure To Be Erected In New York

The world's first glass office building, five storeys tall, will be erected on Fifth avenue and nobody inside above the ground floor will be able to see outdoors.

Walled in behind glass tiles, the occupants will receive 78 per cent. of the outdoor light. The place will be windowless, except for five show windows on the ground floor.

The plans were announced by the Corning Glass Works, which will own and erect the structure. It will stand at the southwest corner of Fifth avenue and 56th street, in one of New York's swankiest shopping districts.

Skywriter Makes Error

Skywriting Al Stinis slipped while Montrealers watched in wonderment as he gave them their first sight of air skywriting. Criticism came from a spectator gazing upward from a downtown street. "Heck," said the spectator, "He's dotted an upper case 'L'."

Potash From Dead Sea

Great Britain Closely Watches Process At New Plant

The Dead Sea, the strangest body of water in the world, is slowly coming to life again.

Lying 1,300 feet below the level of the Mediterranean, receiving an inflow of 6,000,000 tons of water daily from the River Jordan without an outlet, the sea has puzzled archaeologists and geologists for centuries.

Today, where once Sodom and Gomorrah stood, where David took refuge, where Herod and Marianne fled when the Parthians captured Jerusalem in 42 B.C., modern science is taking out potash and bromine—and the Dead Sea area is alive with activity.

Once barren and thought useless, the sea's shoreline is ringing with the sound of hammers as a new potash works, with a 30,000-ton capacity annually, has brought on a building boom.

Resorts put up by British capital, in and around the Dead Sea, have been bringing thousands of visitors to the sea each winter, and homes and works buildings are springing up like mushrooms.

Great Britain is closely watching the potash process, for the Dead Sea is her only source of potash and bromine in the empire and it will come in handy if war sweeps Europe and the world again.

The process, thought simple because of the natural function of the sea itself, is ticklish and is watched from beginning to end by three shifts of 430 laborers.

The brine is pumped from the bottom of the sea through wooden pipes into pans which are arranged to allow a slow movement of the brine from one pan to the next. In the course of the flow, the brine becomes more and more concentrated until common salt precipitates. The next step produces carnallite, or crude potash, which is shipped to refineries.

By contrast to ordinary ocean water, which contains from 4 to 6 per cent. salts, the Dead Sea contains 25 per cent. No animal life is possible in its water, and very little vegetable life.

The evaporation from the sea, its only outlet for the heavy inflow, causes strange-looking blue-white clouds to float overhead, giving it a fantastic sheen from a distance.

A Clever Love Bird

That he has the cleverest love bird in the world is the claim of B. Perkins, a barber of Sydney, Australia. It is three inches long and can pull a match from a box and present it to a customer, saying "O.K. Chief" as it does so. The bird sleeps in a shaving mug, and on cold days it perches on the rim of a cup of tea, to keep warm in the steam.

Travel in England by rail, bus and street car last year averaged 435 journeys for every man, woman and child.

Many Uses Of Soy Beans Results In Increasing Interest In This Legume

Changes Are Noted

Report Says That Family Life Has Come Back In Russia

Writing his observations of progress in Russia, in connection with the proposed new constitution, an Associated Press correspondent says the family life has come back into its own as a recognized basic unit of society.

Parents are held increasingly responsible for maintenance and education of their children and "fireside influence" is stressed as one of the most important factors in bringing up the new Bolsheviks.

Free and easy divorce is gone. Divorces are now taxed and both parties must appear before the decree is granted. Divorced parents must support their children or go to prison.

Simplicity of dress is no longer considered essential to the good Bolshevik. Silks for the women, white collars and ties for the men have long since won public favor.

Titles have been restored in the army, the office of housewife is held in high esteem and there are dozens of other developments tending to make life in the Soviet union similar to that in "bourgeois" countries.

Realism In Films

Traveller In Hollywood Sees How It Is Produced

A traveller, who was in Hollywood, reports that he was taken on a tour of the M-G-M studios, where he was shown dozens and dozens of sets, each one perfectly enormous in size and exact in detail; a submarine, several square blocks of eighteenth-century Paris (for "A Tale of Two Cities"), a whole battleship in an artificial pond, a night club, and (for "Romeo and Juliet") a pretty convincing mountain. Then the guide took him over to a corner where there were two kitchen tables, one covered with a thin layer of dirt in which were stuck little pieces of straw, the other just covered with dirt. "We used these in 'The Good Earth,'" the guide said. "The rice fields of China before and after the plague."—The New Yorker.

Word Has Been Banned

You cannot ask for a "sandwich" in Italy any more. It has been announced in Rome that the word has been banned from the Italian language because it owes its origin to a famous earl in a "sanctionist" country. Now it will be known as "pampieri," which means filled bread.

Brazil's 1936-37 coffee crop will fill over 21,000,000 bags.

Dish Towel Dogs Are "Up To Tricks"

PATTERN 5652

These frisky, dish-towel dogs are indeed "up to tricks," but wait till the children see them, for they'll all want to do the dishes. Just think what a practical gift or fair donation this set of seven would make. It's a cross stitch and outline, and using one color of floss gives a silhouette effect. In pattern 5652 you will find a transfer pattern of seven motifs (one for each day of the week) averaging 4 1/2 x 7 1/2 inches; material requirements; illustrations of all stitches needed; color suggestions.

To obtain this pattern send 20 cents in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 175 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published.

Household Arts by Alice Brooks

Cay Motif Trims Dish Towels and Kitchens

The world production of this valuable legume is probably in excess of seven million tons annually. Manchuria, the largest producer, is followed by Japan and the United States. Statistics relative to the Russian crop are not available.

Canadian production is, as yet, too small to exert much influence on the world market, but there is an increasing interest in the soy bean crop. Varieties suitable for domestic production are gradually replacing the imported beans.

Chemical analyses have been conducted for some years by the Division of Chemistry, Central Experimental Farm. The protein content, it has been found ranges from approximately 31 per cent. to 39 per cent., while the oil constitutes from 14 per cent. to 18.5 per cent. of the bean. Of two varieties, having characteristics suitable for Canadian cultivation, the unsaturated acids in the oil range from 82.2 per cent. to 84.3 per cent. The iodine numbers show a variation from 125.0 to 134.2. These data indicate the value of the oil for industrial applications, where readily oxidisable oils are demanded. The inorganic salts containing valuable mineral matter, approximate 5 per cent. of the weight of the bean.

The uses of soy beans are many and varied. Considerable amounts of the oil are used in paint mixture in conjunction with linseed and tung oils. A prominent automobile manufacturer, who maintains a staff of chemists, now finishes his product by utilizing an enamel, the base of which is a synthetic resin produced from the soy bean. The resin also finds application in the manufacture of electrical equipment. Because of its drying properties, the linoleum and oilcloth industries use large amounts of soy bean oil.

Much of the oil finds its way to the soap vats. Here it is especially suitable for automobile soaps. Glycerine is produced as a by-product.

Some other uses for the oil are, as rubber substitutes, celluloid, printers' ink, explosives, salad oil, lighting and lubricating oils, as core binders for foundry work. The partly hydrogenated crude oil has been found useful as a stabilizer for shortening compounds.

Soy bean oil contains lecithin, a phosphorized fat, and is displacing egg yolk to some extent as a source of this material used in medicine. Of interest too, along medical lines, is the disappearance of food allergies, particularly those caused by protein, following the ingestion of specially refined oil.

The beans furnished a homegrown nitrogenous concentrate for animal feeding, being a source of protein for sheep, beef and dairy cattle and brood sows. It should, however, be used with caution in the rations of market hogs, since it produces soft pork.

As a protein supplement, the oil meal is of value in the rations of beef cattle, dairy cows, sheep and poultry. A simple mineral mixture is advantageously added, since the meal is deficient in this respect.

For human use, the beans provide many forms of foodstuffs. The green beans may be served as a vegetable or in salads. Flour made from processed beans, high in fat content, is now found in the products of many bakeries. Since starch is absent, soy bean flour is marketed in diabetic foods.

The dried beans have been used as a coffee substitute, in soups, as a source of casein, as a milk substitute and cheese.

As the composition of both the fat and the proteins of soy beans more nearly approach the composition of these constituents found in animals, soy beans could be used to replace meat in the diet.

The uses of this interesting plant are finding increasing application.

Bees Attack Horse

A horse kicked over a hive in Naponkoski village, central Finland, and was stung to death by the furious bees. A peasant who rushed to the horse's rescue was also attacked and so badly stung that he had to be taken to hospital. His condition was stated to be precarious.

Melvin Notes.

Mr. and Mrs. Emil Krebs were dinner guests Sunday with Mr. and Mrs. Charles Younge.

Miss Mary McDonald is spending a few days with Mrs. R. McNaughton.

Mr. and Mrs. Lee Sanderman spent Wednesday evening with Mr. and Mrs. August Krebs.

We are sorry to hear that Mrs. John Schneidmiller is in hospital. We hope she will soon be well again.

Miss Dorothy Youngs spent the weekend with Mrs. Hugh Morton of Didsbury.

Mrs. G. Carlson spent a few days last week with her daughter, Mrs. P. Daniels of Calgary.

Mr. and Mrs. H. Hubert and daughter Hilda and Mr. Witwood of Alsask, Sask., were the weekend guests of Mr. and Mrs. A. Krebs.

We were very pleased to see Miss Sarah Landeen at the school on Tuesday. We hope her health will improve quickly and that we shall see her out often.

Miss Hazel Ray and her pupils are putting on their minstrel show at Garfield on Friday evening, November 6th. Those who have not seen this play should try and reserve that evening to go to Garfield and see Melvin's little minstrels.

The school children invited the parents of the district to a social on Tuesday afternoon to see the culmination of their first enterprise. The display was very creditable to both teacher and pupils. A very pleasant afternoon was spent, nearly every family being represented, showing the interest being taken by the parents.

Mr. and Mrs. Sam Gibson and family of Leroy, Alberta, spent last week visiting friends around the Didsbury district. Sunday evening a family reunion was held at Mr. and Mrs. Peter Johnston's home, about twenty-nine being present. Mrs. Gibson is a sister of Mrs. Johnston. Miss Ethel Gibson is remaining for some time. The other members of the family returned home Monday.

SOCIAL CREDIT NOTES

The Didsbury Social Credit Study Group No. 1 held its regular meeting on Monday, October 26th. Various correspondence was dealt with, after which a lengthy business session followed. A Social Credit Council meeting was reported on as to Mr. Poole's forthcoming meeting. Two resolutions were passed by the group as follows—

Resolution No. 1: Resolved that the government should not redeem any more Prosperity Bonds, and that all civil servants, cabinet ministers and M.L.A.'s receive a portion of their salaries and indemnities in Prosperity Certificate.

Resolution No. 2: Resolved that this group goes on record as not recognizing any person who is selling opposition newspapers as a bona fide Social Creditor.

The meeting was then adjourned. Lunch was served by the ladies and a vote of thanks was tendered to the host and hostess. The next meeting will be held at the home of the President, Mr. A. Schwesinger, on Monday, November 9th.

Mrs. A. Schwesinger, Sec.-Treas

The Didsbury Pioneer S.C. Group held its last meeting at the home of Peter Jenzen on Monday evening, October 26th. The president, in his remarks, drew attention to the election campaign going on in the U.S.A. and pointed out some of the objectives the U.S.A. electors are struggling for and compared them with Alberta's struggle to deliver its people from financial bondage. He showed how a united people pulling together and supporting one leader could accomplish results and attain objectives which cannot be obtained by a divided people. Alberta has shown the world what can be done when the common people co-operate and stick together.

After business was dispensed with, a short entertainment program was rendered and enjoyed by all present. The next meeting will be held at the home of Mrs. Ada Stevens next Monday, November 2nd, at 8 p.m. H. Erb, Secretary.

LOCAL & GENERAL

J. G. Tracksell is visiting old acquaintances in town this week.

Sunday evening service at the Community Hall this Sunday at 7:45 with Mr. E. Sherrick as the speaker.

We carry a full line of Men's Wool Sweaters from \$2.25 up.—T. E. Scott.

Mr. and Mrs. W. J. McCoy and Mrs. Dr. Clarke motored to Edmonton on Monday.

Mr. and Mrs. Russell Berscht, of Innisfail, spent Sunday with the former's parents, Mr. and Mrs. J. V. Berscht.

Yee Bow who had been visiting his home in China for the past two years, returned to Didsbury last weekend.

Rev. Clarence J. Pike who has been visiting friends here, returned to his home at Portland, Oregon, this week.

We have Boys Fleece Lined Combinations, sizes 28 to 32, for only \$1.00.—T. E. Scott.

Mr. and Mrs. Ward Keith, of Sylvan Lake, visited with friends and relatives here on Monday evening.

Auctioneer Boyce announces that he will hold a Community Auction Sale the latter part of November. List anything you have to sell with C. E. Reiber.

Among the buyers of purebred livestock at the Calgary show last week were H. Roberts, who bought Yorkshire swine, and G. R. Fulkerth and C. E. Klinck, who bought sheep.

The Bishop & Son Auction which was held last Wednesday was well attended and fair prices were received. Mr. and Mrs. Bishop will remain on the farm for a short period before moving to Calgary.

You can buy 4 Pairs of Men's Wool Sox for \$1.00 from T. E. Scott.

The Canadian Legion are making arrangements to hold their annual Concert and Dance on Armistice Day, November 11. An excellent group of Calgary artists has been engaged for the concert.

A number of the members of St. Hilda's Chapter O.E.S. paid a fraternal visit to the Innisfail Chapter on Tuesday evening, when the Grand Matron of the Grand Chapter of Alberta was paying her official visit.

Mr. Leonard Shearer and Miss Gladys Qually, of Claresholm, were visitors with Mr. and Mrs. J. E. Moffatt over weekend. They were accompanied by Mr. and Mrs. Reg. Wallace. There is a possibility that Mr. Shearer may play hockey for Olds this season.

We have Men's Pullover Mitts at 45c, 65c and \$1.00. Try a pair.—T. E. Scott.

A. Melville Anderson, optometrist and sight specialist, will make his regular visit to the Rosebud Hotel on Monday, November 2, 1936. Eyes examined and glasses fitted.

Negotiations aimed to provide export outlet for 100,000 head of Western Canada cattle a year to Soviet Russia will shortly be launched by the Western Canada Livestock Union. Livestock men met in Regina on Saturday to discuss the question informally.

Doings of Our Neighbors

AT OLDS: The old creamery building has been leased as a state credit house.

The Olds School of Agriculture opened last Wednesday with 175 students entered on the roll.

A Glassy Stare.

Erratic Maiden Lady: "I say, salesperson! Is this the mirror department?"

Clerk: "Yes, ma'am."

E. M. L.: "Well, I'd like to see something odd in a mirror."

Clerk: "Yes, ma'am. Just take a look in this one, ma'am."
